# Combine strategic vision with the power to make it a reality

Our three step approach is built on supporting your vision with structured methods that achieve your ambitions with speed and efficiency, so you can stay ahead of a changing market that is moving at a rapid pace.

## 1. Align

Consulting and development of a strategic direction aligned with your broader business objectives.

## 2. Transform

Implementation aimed at delivering real business outcomes right away.

## 3. Scale

Focus on your core business and unlock your full potential by outsourcing IT services.

## Our specialist sector expertise and value-driven approach set us apart

### Global presence, local execution

With a physical presence in 25 countries and experience working with global customers, we're a #1 MSP in the mid-market sector, serving 10,000 customers worldwide.

### Value-driven engagements

Occupying a space between GSIs, local specialist SIs and service providers, means our repeatable model is focused on simplicity, speed and agility to help clients achieve value faster, with less risk.

### End-to-end capabilities

We have unique consulting capabilities as well as managed services for implementing and running cloud solutions, and managing the customer lifecycle.

### Industry specialists

Our network of 6,500 employees has strong expertise in architecting change in financial services, banking, healthcare, government, manufacturing and more.

“Logicalis Public Cloud division, has been extremely proactive and has stepped-up to the plate on multiple occasions. They’ve been getting on with it, working with our partners and Microsoft to overcome hurdles and roadblocks, as well as working well with our team.”
